Objet/Subject : REACH European regulation

Dear customer,

We indicate you that our company APEM Italia Srl is perfectly informed about the new obligations coming from the REACH regulation N°1907/2006/EC.

Under REACH, we are producers of articles: professionals keyboards.

All the substances present in the articles that we deliver to your company are not intended to be released during normal and reasonably foreseeable conditions of use. Therefore, we are exempted from preregistration and registration.

In accordance with the regulation, we have taken the necessary steps with our own suppliers to ensure that they achieved the procedures of pre-registration and registration for the substances and preparations that we use. We have also ensured that the articles that we purchase will continue to be supplied in the same conditions or that alternative products will be proposed as soon as possible.

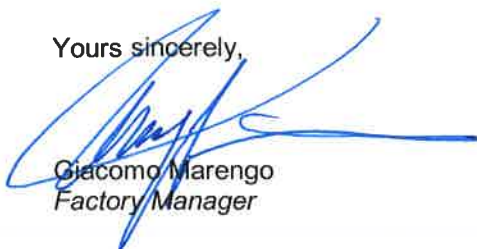

Today and in the state of our current knowledge, we have not identified in our products and packaging any substance included in the candidate list published on 28th October, 2008, upgraded December 17, 2014.

All our suppliers have been contacted for confirmation of the absence of any substance of very high concern in the products that they supply. Should such a substance representing more than 0.1% of the total weight be included in one of our product, we shall inform you without fail.

We remain at your disposal for further information. The person in charge of REACH in our company is:

giacomo.marengo@apem.it.

Yours sincerely,

Giacomo Marengo
Factory Manager
